

CONFUSION

Ooooh what a confusion
Why do we keep on living in fear and illusion
Hooope we can find a solution
To save mother nature from war and massive pollution

Now brace yourself together my brother (together my brother)
Did they manipulate you like they did the weather ?
You've got the tools to solve this now
See the sunshine across the clouds
We getting closer everyday my sister (we're getting closer my sister)
Visualise what we want for each other
Ain't no way we can stop them now (can't stop dem now)
Still I and I never bow

Ooooh what a confusion
Ooooh what a confusion

Since we were children, dem teach us to be foolish and produtive
(feeding di youth with di negative)
They wanna make us believe there's no other alternative
(brainwashing di collective)
Doing whatever it takes to raise the money
(robing we milk and honey now)
Don't trust dem evil words, what dem preach is dummy
(we must a follow we callin' now)
We can grow the links between man and the spirit of nature
I know we can make it better
(oh with a gesture)
If we change our behavior
(we haffi lift up each other)
Everything's moving too fast, let's take it slow
(and let it go with the flow now)
Could we stop dem slaughter at last and let it grow
(oh we love haffi show now)

Ooooh what a confusion
Why do we keep on living in fear and illusion
Hooope we can find a solution
To save mother nature from war and massive pollution
Don't wanna be dem cash cow (cash cow)

Stop waiting till the last straw, yeah !

(EP BORN AGAIN 2019)
